

Max-E-Glas®

Pool/Spa Pumps

By Sta-Rite®

Smooth, quiet, high-efficiency performers

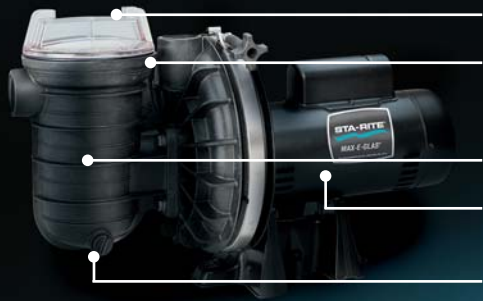

Max-E-Glas® is one of the pool industry's premier pumps – and for good reason. Its powerful, quiet operation and long-distance durability are simply unsurpassed. The Max-E-Glas is also one of the very first pumps to utilize a high-efficiency motor to reduce electrical operating costs – by up to 25%! With its proven track record, the Max-E-Glas is featured in many of the world's finest pools. Professional builders have a lot of options in choosing pool equipment, but it's Sta-Rite's reputation for quality that makes Max-E-Glas the first choice.

- Energy-efficient motor and superior hydraulic design deliver effortless performance, energy savings and extend the life of the pump.

- Large-capacity trap holds more dirt, and the "clear-view" lid lets you check for debris without lifting a finger.
- Rugged construction and motor rated for continuous duty make this pump an easy choice for providing years of reliable operation.
- Precision manufacturing of internal components and a specially designed sound-dampening base make pump operation extremely quiet.

For the very best in quality and performance, choose a Max-E-Glas pump for your pool.

Max-E-Glas® Pool/Spa Pumps

- See-thru lid lets you check for debris at a glance.
- Easy twist-off lid with integral permanently-lubricated O-ring permits quick removal and replacement.
- Extra-large capacity 5" trap for less frequent maintenance.
- Available with high-efficiency electric motors from ½ to 1 HP; rated for continuous duty.
- Tool-free drain plug for easy winterizing.

The “original” high-efficiency pump for pools and spas

Quiet, dependable operation, less maintenance and energy savings you can count on make Max-E-Glas® and Max-E-Glas® II series pumps the preferred brand for pools and spas. Because these pumps require less maintenance and are easy to service, you will spend more time enjoying your pool or spa and less time maintaining it.

Save even more money - Superior flow dynamics effortlessly move more water to help reduce operating costs. Max-E-Glas pumps feature energy-efficient motors, which lower electrical costs even more.

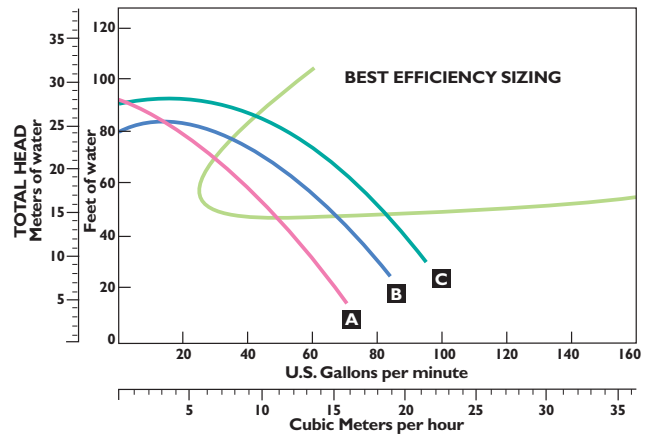

Minimum maintenance - When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket. Simply empty the basket, re-apply the “clear-view” trap lid and twist it to the right.

Built for the long haul - Only the finest materials are used to build lasting quality into each pump. On the outside, Sta-Rite's exclusive thermoplastic composite resin weathers temperature extremes for long, dependable life. On the inside, a heavy-duty shaft seal and impeller stand tough against harsh chemicals.
