## FEATURES

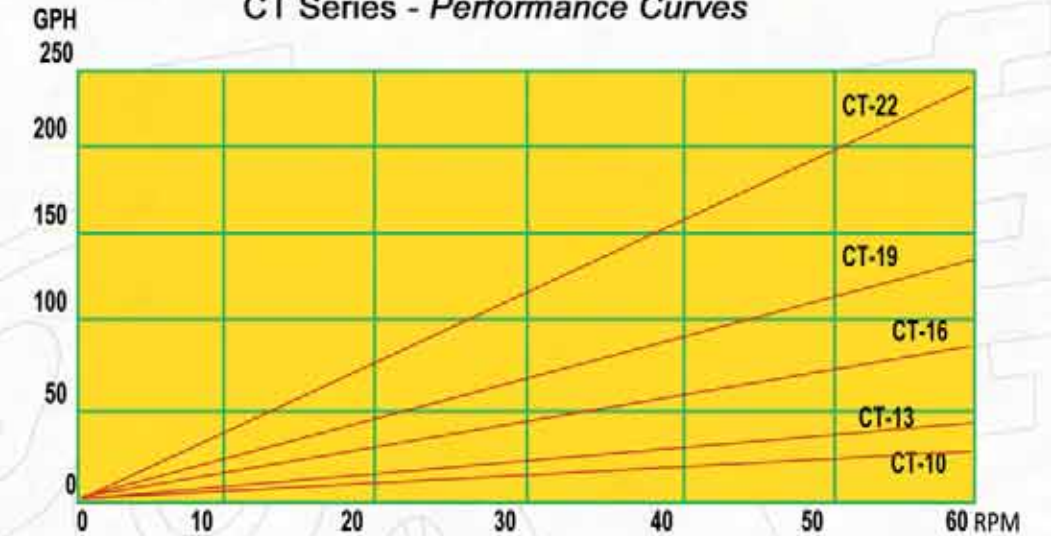

- Corrosion Resistant
- Low Operating Speeds
- Long Tube Life
- Will Not Vapor-Lock
- Self Priming to 30 ft.
- Operating Pressures to 115 PSI
- Metering Accuracy +/- 1%
- Safety Sealed Pump Head
- Pressure Rated Connections
- Early Leak Detection
- Wide Flow Control Range
- UL Listed NEMA 4X Controls

CT Series - Performance Curves

## Corrosion Resistant Construction

- Body:** HALAR Coated Aluminum for Superior Strength and Maximum Chemical Resistance.
- Rotor:** High Performance Engineered Plastic for Rugged Reliability and Chemical Resistance.
- Roller Shafts:** 316SS for Maximum Chemical Resistance and Long Life.
- Roller/Bearing:** One-Piece High Performance Engineered Plastic for Simplicity, High Performance and Chemical Resistance.
- Connections:** Rigid 316SS, PVC, Polypro or PVDF for Superior Piping Integrity and Maximum Chemical Resistance.
- Gearbox:** Sealed Gearbox and Sealed Shaft for Maximum Protection.
- Motors:** Chem-Duty, Wash Down Duty, Inverter-Duty, 1000:1 Turndown Motors with SS Shafts, Moisture Resistant Windings and Epoxy Coating.
- Containment:** Gasketed Body for Primary Leak Containment and Safety.
- Leak Detection:** Tube Leak Detection with Leak Containment.
- Base:** Corrosion Resistant HDPE
